

T5 - 4W

Exit Sign Replacement Lamps

Retrofit all your existing exit signs with inLEDs™ LED lamps. Cut your electricity usage by up to 50%. Long lamp life of 5 years or longer. No Modification to existing fixture needed.

Product Features

- Light source: high power SMD LEDs
- Working condition: 12-28V
- Ambient working temperature: -20 to 45 degrees Celsius
- Available in T5 or T8 bi-pin connectors
- Replaces **F8T5** or **F10T8** fluorescent tubes

Benefits

- 1) Solid-state, high shock / vibration resistant.
- 2) Major reduction in utility bills.
- 3) Environmentally friendly. No mercury or lead.
- 4) No danger of broken glass.
- 5) Ideal for hard to reach places.
- 6) Low power consumption, high intensity.
- 7) Long lifetime of 50,000 hrs (5+ years).
- 8) Lower maintenance costs.

Warranty

Two (2) years warranty subject to terms and conditions of use.

Installation

Direct drop-in replacement* for existing exit sign fluorescent tubes. Installation is quick and easy and can be performed by your existing maintenance or facilities management personnel.

LED vs Fluorescent Tube Service Life Comparison:

F8T5 Fluorescent Tube – 5,000 to 8,000 hours
T5 LED Tube – 50,000 hours

*Starter needs to be removed. Can be used in existing fixture but ballast should be removed for optimum performance.
